

The ABC's of Reloading, 10th Edition

MAKE YOUR OWN AMMO AND SAVE MONEY, TOO!

Reloading expert and frequent *Gun Digest* contributor Phil Massaro lays out the basics of reloading and then digs further into the details in a fresh approach that introduces beginners to this valuable hobby while helping those already familiar with reloading take their skills and knowledge to the next level.

As a bonus, long-range shooters searching for tips on making ultra-consistent ammo using high B.C. bullets and fine-tuning for precision accuracy will greatly benefit from Massaro's insight into that topic as well.

Massaro's coverage of the vast array of reloading gear and components that have been introduced during the past decade alone makes this edition invaluable for the enthusiast who might be overwhelmed with questions. From the very basic questions of "How does a cartridge work?" and "What components do I need to get started?" to more advanced information on understanding cartridge pressure, headspace and using a chronograph to check your work, this is THE book to help shooters sort it all out.
