

# BLADE'S Guide to Buying Knives

## Read this before you make your next knife purchase!

Regardless of why your assemblage of blades continues to grow, knowledge is power, and there's a seemingly endless number of basic questions that you need answered to get the most for your money. That's where this book comes in.

In cooperation with *BLADE® Magazine* and BLADE Show, the world's largest knife show, author Jason Fry delves into the intricacies of buying, selling and trading knives of every type. If you've ever looked at a knife and wondered if it's priced fairly, if it would make it a good investment, or if it's designed adequately for your next task, this is where to start your search for answers.

Also included is a special 16-page color photo reference section showing examples of knife types and conditions cited in the book, further teaching buyers what to look for in their quest for their next purchase.
