CONCEALED CARRY GUNS

New Semi-Auto
Pistols for
Self-Defense

In addition to its new Deluxe National Standard and Jones Deluxe variations, Cabot has added a totally new model called the American Joe. With unique engraving, this full-house custom beauty comes with special American flag grips.

Semi-Auto Pistols

BY GARY PAUL JOHNSTON

Beginning around 1,300 years ago, the first guns appeared, the prototypes of today's shotguns, handguns, and rifles. The etymology of the word "pistol," which arrived about the year 1550, is vague, but may have come from similar sounding words in German, Russian, and French, which referred to a small pipe or flute. Whatever the case, the term was applied to any and all handguns until the mid-nineteenth century, when the term "revolving pistol" came into use so as to differentiate between the (then modern) revolver and the handguns that did not have a revolving cylinder.

At the end of the nineteenth century, with the advent of the self-loading, magazine-fed pistol, revolvers began to be simply called revolvers, leaving all other handguns to be called pistols, the latter usually with an adjective in front, i.e., single-shot, double-barrel, and that newfangled one, the self-loading pistol. When, soon after, fully automatic pistols arrived on the scene, a more descriptive term emerged to categorize those

pistols that fired only one shot for each press on the trigger, and that term was "semi-automatic." Today, these guns are more commonly referred to as pistols with the term "semi-automatic" being generally understood.

All self-loading pistols (and other arms of semi-automatic mechanism), are gas operated, but how the gas is used further describes particular operations. The vast majority of today's semi-automatic pistols operate by simple blowback or short recoil.

In blowback, the breech is not mechanically locked, such as happens in .22 rimfire and .25, .32, and .380 centerfire pistols. Rather, it is only the mass of the slide and other recoiling parts and spring pressure that slows the opening of the breech until the bullet has left the muzzle.

Most pistols of larger calibers use a mechanical lock to keep the breech closed for a longer time after the gun is fired. In the vast majority, this operation is called "short recoil." As a subset, the type known as "Browning short recoil"

is the most common, with the more simplified versions referred to as "modified Browning short recoil." A few other pistols use "rotating barrel short recoil," such as is found with some European models. In any case, the barrel and slide (or bolt) recoil together for only a short distance before being unlocked, with kinetic energy completing the rearward travel of the slide. Although there are others, blowback and short recoil operating systems will remain the most common in semi-automatic pistols for the foreseeable future.

Various types of fire are used in semi-automatic pistols to include single-action-only, double-action-only, first shot double-action with successive shots single-action (DA/SA), and these can be hammer or striker fired. What's more, various safeties can be found that work automatically, manually, or both. None of these modes seems to be in preference over the others, but the revival of manual safeties is apparent.

The main materials used in semi-automatic pistols continue to be

steel, aircraft quality aluminum, and polymer, with the last having taken a quantum leap in popularity since the success of the Glock pistol introduced three decades ago. We can expect to see this trend in pistols to continue, but let's look at some of the new ones for 2013.

ARMSCOR/ROCK ISLAND ARMORY

New for 2013 is a compact hi-capacity version of Armcor's 22 TCM (Tauson Craig Micromag), a variant of the model 1911 pistol that's chambered for an ultra high-velocity .22-caliber centerfire cartridge made from a necked-down 9mm case. Called the 22 TCM MS 1911 VZ, the new pistol is a Commander-sized compact with full-house features, including adjustable sights, and it has a frame rail for mounting lights and lasers. Also offered is a 9mm barrel to convert the gun to use the 9x19mm cartridge.

From Rock Island comes the TAC II, a five-inch 1911 in 10mm with a host of custom features. (www.us.armscor.com)

BOBERG

Boberg Arms has introduced its XR9 S, a variation of the company's XR9, but in two-tone, with a stainless steel slide and a black anodized receiver. Billed as the world's most powerful 9mm compact pistol, the XR9 is a hair over five inches long, with a 3¼-inch barrel and a 7+1 capacity of 9x19mm +P ammunition. The secret of the XR9 S is its unique feeding system, with the slide extracting rounds from the chamber and the rear of the magazine at the same time. (www.bobergarms.com)

CZ

CZ's new entry for 2013 is the P-09 Duty. A full-size version of the polymer frame P-07, the P-09 Duty has a capacity of 19+1

rounds of 9x19mm ammunition and used an Omega system and ambidextrous decocking levers that can be converted to thumb safeties with parts supplied. Three interchangeable backstraps come with the gun, and a 1913 frame rail is part of the package. Also new are variations of the CZ75 and CZ97 models. (www.czusa.com)

CABOT GUN COMPANY

The Cabot Gun Company's 2013 offerings include deluxe versions in its Jones and National Standard 1911 pistols, both of which sport two-micron mirror hand polishing, Novak Adjustable Sights, and deep double blue in the case of the Jones Deluxe. The Jones Deluxe features Sonoran Desert ironwood grips, while the National Standard Deluxe comes with polished mammoth ivory stocks. Cabot's totally new pistol is the "American Joe," a gorgeous 1911 inspired by rock star Joe Ferris and with unique engraving designed by him. This 420 stainless steel beauty features 20 lines per inch checkering on the frontstrap, three-dot Novak Adjustable Sights, alloy tri-star trigger, and custom designed aluminum American flag grips, (www.cabotguncompany.com)

CARACAL USA

Caracal's new pistol for 2013 is a .40-caliber with a 4.1-inch barrel and a 14-round magazine. Noted for sitting

Above: Firing Armcor's .22 TCM powerhouse cartridge in a new compact version of the company's 1911, it gets furnished with a 9x19mm conversion barrel.

Right: Complementing the longer Boberg XR9, this new micro-compact is one of the smallest 9x19mm pistols in the world.

CZ's new P-09 pistol is loaded with the right features, including ambidextrous controls.

extremely low in the hand, the Caracal is a double-action-only handgun from which most will find muzzle flip easier to control. (www.caracalusa.com)

CENTURY ARMS

Just announced from Century Arms are its newly imported GP K100 Mk7 and P1 Mk7 9x19mm pistols. Being issued to the Slovakian military, these pistols are from the Czech Republic. They employ 4140 steel components, a steel-reinforced, polymer GF-30 frame, and incorporate a rotating barrel locking system with a DA/SA firing mode and totally ambidextrous controls. Four interchangeable grip inserts ensure a fit for almost any hand. Measuring just under eight inches long, the full-size

K100 Mk7 weighs 1.8 pounds, while the 7.4-inch P1 Mk7 tips the scale at 1.7. Both come with two 15-round magazines. (www.centuryarms.com)

COLT'S MFG. COMPANY, LLC

The big news from Colt is the winning of the U.S. Marine Corps contract for the new 1911 pistol. Called the "CQBP M45," this pistol is based on the Colt Rail Gun. Packed with features normally reserved for full-house custom 1911 pistols, this one comes with a unique reinforced frame rail, front and rear slide grasping grooves, a dual recoil spring/buffer system, Novak LoMount Night Sights, a desert tan finish, Wilson seven-round magazines, and G10 grips. On the left side of the slide are

Glock's new G30S is the company's smallest .45 yet and holds 10+1 rounds of .45 ACP.

the letters, U.S.M.C. The Colt Custom Shop is also offering a beautiful, exact recreation of the Colt Model of 1911, as made in 1912. (www.coltsmfg.com)

CYLINDER & SLIDE

Adding to its series of turn of the century-styled pistols is Cylinder & Slide's new/old inside-hammer C&L Automatic, complete with outside extractor and grip safety. A limited edition in .45 ACP, this pistol has characteristics of the Model 1905 Colt and its 1902 sibling in .38 Colt, but does not use the "parallel ruler" system of locking. C&L's not so limited new pistol is the .45 1911 Trident, a full-house gun with a ported slide, Novak adjustable sights, and much more. (www.cylinder-slide.com)

FNH-USA

Last year, FNH-USA introduced the FNS-9. A double-action 9mm polymer frame pistol, with a 17+1 capacity magazine, it was accompanied by the FNS-40 in, of course, .40 S&W. This year, FNH-USA introduces the FNS Combination Kit, which allows the user of either to switch caliber to the other. The kit includes a slide, barrel, spring, and magazine and comes in a soft-sided Cordura case. As an aside, the FNS-9 won the NRA's coveted NRA 2013 Golden Bullseye Award. (www.fnhusa.com)

GLOCK

The exciting news from Glock for 2013 is the new .45 ACP G30S Compact. Weighing just over 22 ounces, the G30S amounts to a G36 slide on a 30SF frame. Holding 10 rounds of .45 ACP ammunition, the G30S has a barrel just 3.78 inches long, with a total length under seven inches. The G30S even has a short frame rail, is comfortable in the hand, and is easy to conceal. With a muzzle velocity of 787 fps, this little .45 should prove formidable. (www.glock.com)

HECKLER & KOCH

This year, H&K offers a Compact Tactical Pistol for commercial sale. Based on the U.S. military H&K candidate pistol, this one has virtually all the same features, including a threaded barrel, interchangeable grip panels, and eight- or 10-round magazines. With an overall length of 7.91 inches, the H&K .45 Compact Tactical has a barrel 4.57

inches long and a weight of 1.82 pounds. A Mil-Spec frame rail is also standard. (www.hk.com)

KAHR ARMS

Kahr's new pistols for 2013 include the 380 CW, a micro-compact pistol with Kahr's super smooth double-action and an excellent grip just aggressive enough to hold onto. Also new is a Kahr P40, now with the welcome addition of an external thumb safety, and the same with night sights. (www.kahrarms.com)

KIMBER AMERICA

Kimber introduced several new superb pistols this year. They are the all black 9mm SOLO DC (Deep Cover), with DLC self-lubricating finishes, night sights, and optional laser grips. The new smooth 3-Gun .45 ACP Master Carry Series 1911 comes with a black slide and as a stainless frame Master Custom, or alloy frames on Master Pro and Ultra models, and all three have rounded heels (butts) and laser grips. Last, but far from least, is Kimber's new match grade Warrior SOC (Special Operations Capable). A five-inch rail gun designed for optimum performance under the worst conditions, the Warrior SOC comes with a Crimson Trace Rail Master Laser and tan and green KimPro II finish on the slide and frame, plus all of Kimber's custom grade 1911 features and beautiful G10 grips with a lanyard ring. (www.kimberamerica.com)

LION-HEART

A brand new company, Lion-Heart Industries, of Washington, is importing a unique new 9mm alloy frame variation of a system that made headlines three decades ago in the FN-Fast Action Pistol. Called the LH9, the gun resembles the S&W Model 59 (it will use M59 magazines), but has many changes, including its two-part hammer. With slide-cocking grooves fore and aft, the LH9 has a large, undercut trigger guard, external thumb safeties, and aggressive grips. Inside is a standard DA/SA system, but the gun can also be carried cocked and locked. Lastly, the cocked (outer) hammer can be pushed forward under a kickstand-type motion, where it and the trigger will remain. By pulling the trigger back about 3/8-inch, the trigger and (outer) hammer overcome the détente and return to single-action, ready to be

Right: The FNS-9 (here) and FNS-40 from FNH-USA, introduced last year, is now offered with a combination kit that allows conversion from one caliber to the other.

Below: Kahr Arms' new 380CW is a great DA .380 ACP micro pocket pistol with an equally great trigger.

Below: Lion-Heart is a new company offering a 9mm pistol family with a unique firing system of DA/SA, SA cocked and locked, and hammer down semi-cocked. It is based on the FN-Fast Action pistol. A .40-caliber version is planned.

Left: Offered in 9mm, Para USA's Elite LS Hunter comes with a six-inch barrel, a frame rail, and fully adjustable sights.

Left: One of Para USA's many new three-inch Agent 1911s, this .45 ACP Executive Agent comes with a rounded butt and seven-round magazine.

Left: Para USA's Black Ops Combat .45 comes ready for tactical use, with a threaded muzzle and a frame rail.

Left: With a polished blue finish and rosewood grips, Remington's Carry 1911 .45 was meant for serious concealment.

fired. Or it can be manually returned forward. An LH9C (compact) and LH9R (rail) are also now being offered. (www.lionheartindustries.com)

EAGLE IMPORTS/METRO ARMS

From Eagle Imports/MAC come several new 1911 pistols, everything from concealed carry models to tactical types to competition guns. One meant for personal protection is the new .45 ACP BOBCUT, a Commander-style pistol with a rounded butt. Offered in stainless and blue, this gun comes with a number of custom features, including adjustable combat sights. Aimed at competition, the SPS Vista is a five-inch 1911 with a compensator, optical sight mounting system, adjustable sights, a 21-round capacity, and much more. Vista calibers include 9x19mm and .38 Super. (www.metroarms.com)

PARA USA

Para USA's 2013 1911 lineup can be described as nothing less than astounding, with 45 new models ranging from its new three-inch Executive Agent series (SA and LDA) to the PRO series, the Long Slide Hunter, and the revamped BlackOps models. One of the most appealing of this last is the BlackOps Recon, a tactical five-inch 1911 with frame rail, threaded muzzle, and extra high XS sights. (www.parausa.com)

REMINGTON

Remington's R1 1911 line continues to grow with the R1S, a stainless steel R1, high polished blue R1 Carry, and the R1 Enhanced with threaded muzzle, frame rail, and lots of custom tactical extras. (www.remington.com)

ROBAR

In addition to rendering the Glock pistol hardly recognizable, thanks to excellent forward slide cocking grooves, custom trigger, match accuracy, tritium combat sights, a tactical gripping surface, and other frame modifications, Robar now offers a simple grip angle conversion package with three inserts to force existing Glock pistols to point more naturally in different sized hands. (www.robarguns.com)

RUGER

Ruger introduced the new SR1911 Commander-style 1911 .45 pistol for 2013. With a 4.25-inch barrel, this new all stainless pistol measures eight inches overall, and tips the scale at 36.4 ounces, with all other features the same as its bigger SR45 brother. Also big news is Ruger's

Top: Remington's new Threaded Enhanced R1 .45 comes with a threaded stainless steel barrel, a frame rail, and XS High Sights. Above: Remington's new R1S is the company's R1 .45 1911 in all stainless steel.

Robar's new Glock conversion takes existing pistols to the next level with double slide cocking grooves, improved sights, gripping surface, beavertail tang, and three backstraps.

LC380 pistol, a 7+1 round, six-inch pocket pistol with a 3.2-inch barrel at a hair over 17 ounces, but we're not done. Ruger also added an SR45 to that line. A polymer frame duty grade 10+ 1 .45 ACP, this one has a 4½-inch barrel and weighs just 30.2 ounces. Finally is a 22/45 family, with black hard-anodized upper receivers, and Mark III pistols with special target grips. (www.ruger.com)

SCCY

This year, SCCY has introduced the CPX-2, an all-black version of the CPX-1. A 9mm pocket pistol, the CPX-2 is a double-action-only weighing just five ounces with a 3.1-inch barrel and an overall length of 5.7 inches. With no external manual safety, the CPX-1 and CPX-2 pistols operate much like a double-action revolver, but with a capacity of 10+1 rounds. (www.sccy.com)

SIG SAUER

The days of SIG Sauer offering only a handful or two of semi-automatic pistols are long gone. Even those new for 2013 number far more than we could hope to illustrate here, but the two shown are showstoppers. In the 1911 world, SIG's new Spartan Model is a sight to behold. A tribute to that renowned group of warriors, this pistol is a full-house .45

Smith & Wesson's new M&P Pro Series CORE pistols include this five-inch beauty with high adjustable sights. It's available in 9mm or .40 S&W.

The new Sphinx is an ultra-modern DAO 9mm with a combination alloy and polymer frame.

A compact version of the Millennium PRO from Taurus, the new G2 a slick DAO that can be carried cocked and lock in 9mm or .40-caliber.

ACP 1911 with an oil-rubbed Nitron finish and the words "Come and get them" in Greek inlaid with 24-karat gold. The same is seen on the Hogue Spartan Grips. The other new SIG pistol seen here is the P226 Elite SAO, a single-action, cocked and locked 9mm pistol with a beavertail tang, an accessory rail, and undercut trigger guard. It is an ideal choice in a duty 9mm. (www.sigsauer.com)

SMITH & WESSON

New 2013 pistols from Smith & Wesson include three versions of its also new Competition Optics Ready Equipment (C.O.R.E.) family of 9mm and .40 S&W semi-autos. Based on the S&W M&P platform, these Performance Center pistols are filled with enhancements to win in competition, including the use of a wide variety of optical sights. Included are 9mm and .40-caliber full-length models and a .40-caliber Compact.

Equally impressive are two new S&W Performance Center 1911 pistols, a five-inch barreled gun and a 4¼-inch model with a rounded butt, both with stainless steel slides and Scandium alloy frames. Featuring a fully adjustable rear sight and Novak LoMount Sights, respectively, these 1911s are packed with custom features including 30 lines per inch checkered front straps, ported lightening slide cuts, and beautiful G-10 grips. (www.smith-wesson.com)

SPHINX

The latest from this family of pistols is the 9mm Compact. Using the same CNC manufacturing as the Standard Model Sphinx, the Compact also employs a full-length, aircraft quality upper frame section, which is joined with a lower grip section made of glass-filled polymer. A DA/SA pistol, the Sphinx 9mm Compact, is hammer-fired with a decocker and has six internal safeties. It is 7½ inches long with a 3.7-inch barrel and weighs just 27.5 ounces. A 15+1 magazine is standard, as are three backstraps and a frame rail. A threaded barrel is optional. (www.sphinxarms.com)

STI

Adding more 1911 pistols for 2013, STI has introduced two new series of three guns each. The Duty 1 and the Tactical SS families each come with five-, four-, and three-inch barrel models.

STEYR USA

Steyr now offers the latest and longest version of its Model M Pistol. Called the L9-A1, the new Steyr is about a ½-inch longer than the standard version and has a 17+1 capacity in 9mm, 12+1 in .40-caliber. Also new in this model is a loaded chamber indicator at the rear that can be felt while the pistol is holstered, a magazine release that is easily reversible from left to right, and front slide cocking grooves. The L9-A1 also comes with Steyr's instant locking mechanism, an all-steel frame module with full-length slide rails, and two sight options. (www.steyrusa.com)

TAURUS

The big news this year from Taurus is its Millennium G2. An updated version of the Taurus Millennium Pro, this 22-ounce compact pistol is a hair over six inches with a 3¼-inch barrel, and is offered in 9mm and .40 S&W, holding 12+1 and 10+1 rounds, respectively. Operating by double- and single-action, the Millennium G2 comes with high-profile adjustable sights, an aggressive grip texture, and a frame rail. As with others in this Taurus family, it can be carried cocked and locked via a subtle thumb safety. (www.taurususa.com)

USELTON ARMS

Uselton's new Commander-sized 1911 pistol is lighter than most, because of the Explosively Bonded Metal technology it uses. Initially aiming this system at the 1911 market, Uselton permanently bonds 303 stainless steel rails to aircraft aluminum or titanium alloy for strong and super smooth operation, while reducing the weight from 40 to 60 percent. The single frame gets made of two metals by explosive welding at the billet stage, having all precision machining operations done thereafter. The result is a frame that is far lighter than a steel frame, while still maintaining the strength and operating smoothness of steel. (www.useltonarms.com)

WALTHER

Walther's new pistols include the 9mm PPQM2 Series and the PPK/S .22. Upgraded from the existing PPQ pistols, the striker-fired Walther PPQM2 features a frame rail, ambidextrous magazine and slide releases, a tactical grip surface, and backstrap inserts for

Above: A brand new company with a brand new pistol is ZIP Factory, which introduced the ZIP, a radical, modular .22 LR pistol system that uses Ruger 10/22 magazines.

Right: The newest PPK/S from Walther blends the iconic PPK design with the fun and cost savings of the .22 LR.

Left: The latest from Walther includes the PPQ Navy, a 15+1 9mm DAO pistol with fully ambidextrous controls and a threaded muzzle.

different hand sizes. A PPQ M2 Navy Model has also been added, this one with a threaded barrel. The PPK/S .22 is the traditional .22-caliber PPK in stainless steel. (www.waltheramerica.com)

ZIP FACTORY

A new pistol from an equally new factory is the primarily polymer ZIP .22, a totally out-of-the-box design with almost unlimited modularity. Looking like nothing you have seen short of Star

Wars, the 5½-inch barreled ZIP .22 can be a pistol, an auxiliary under-barrel arm on an AR platform, or a survival SBR, all in one, and, yes, it can also be suppressed. Of simple blowback operation, the under-a-pound ZIP .22 will accept any Ruger 10/22 magazine and will shoot any .22 Long Rifle cartridge. A pistol of the future, it is manufactured by the company previously known mainly for its fine single-action revolvers, U.S. Fire Arms. (www.usfirearms.com)

HANDGUNS Autoloaders, Service & Sport

ACCU-TEK AT-380 II ACP

Caliber: 380 ACP, 6-shot magazine. **Barrel:** 2.8. **Weight:** 23.5 oz. **Length:** 6.125 overall. **Grips:** Textured black composition. **Sights:** Blade front, rear adjustable for windage. **Features:** Made from 17-4 stainless steel, has an exposed hammer, manual firing-pin safety block and trigger disconnect. Magazine release located on the bottom of the grip. American made, lifetime warranty. Comes with two 6-round stainless steel magazines and a California-approved cable lock. Introduced 2006. Made in U.S.A. by Excel Industries.

Price: Satin stainless\$275.00

ACCU-TEK HC-380

Similar to AT-380 II except has a 13-round magazine.

Price:\$314.00

ACCU-TEK LT-380

Similar to AT-380 II except has a lightweight aluminum frame. **Weight:** 15 ounces.

Price:\$308.00

AKDAL GHOST SERIES

Caliber: 9x19mm 15-round double stacked magazine. **Barrel:** 4.45. **Weight:** 29.10 oz. **Length:** 7.5 overall. **Grips:** Polymer black polycoat. **Sights:** Fixed, open type with notched rear sight dovetailed into the slide. Adjustable sight also available. **Features:** Compact single action pre-cocked, semiautomatic pistol with short recoil operation and locking breech. It uses modified Browning-type locking, in which barrel engages the slide with single lug, entering the ejection window. Pistol also has no manual safeties; instead, it has automatic trigger and firing pin safeties. The polymer frame features removable backstraps (of different sizes), and an integral accessory Picatinny rail below the barrel.

Price:\$499.00

AMERICAN CLASSIC 1911-A1

1911-style semiauto pistol chambered in .45 ACP. Features include 7+1 capacity, walnut grips, 5-inch barrel, blued or hard-chromed steel frame, checkered wood grips, drift adjustable sights. A .22 LR version is also available.

Price:\$564.00

AMERICAN CLASSIC COMMANDER

1911-style semiauto pistol chambered in .45 ACP. Features include 7+1 capacity, checkered mahogany grips, 4.25-inch barrel, blued or hard-chromed steel frame, drift adjustable sights.

Price:\$600.00

ARMALITE AR-24

Caliber: 9mm Para., 10- or 15-shot magazine. **Barrel:** 4.671, 6 groove, right-hand cut rifling. **Weight:** 34.9 oz. **Length:** 8.27 overall. **Grips:** Black polymer. **Sights:** Dovetail front, fixed rear, 3-dot luminous design. **Features:** Machined slide, frame and barrel. Serrations on forestrap and backstrap, external thumb safety and internal firing pin box, half cock. Two 15-round magazines, pistol case, pistol lock, manual and cleaning brushes. Manganese phosphate finish. Compact comes with two 13-round magazines, 3.89 barrel, weighs 33.4 oz. Made in U.S.A. by ArmaLite.

Price: AR-24 Full Size\$550.00

Price: AR-24K Compact\$550.00

ARMSCOR/ROCK ISLAND ARMORY 1911A1-45 FS GI

1911-style semiauto pistol chambered in .45 ACP (8 rounds), 9mm Parabellum, .38 Super (9 rounds). Features include checkered plastic or hardwood grips, 5-inch barrel, parkerized steel frame and slide, drift adjustable sights.

DIAMONDBACK DB380

Caliber: .380, 6+1-shot capacity. **Barrel:** 2.8. **Weight:** 8.8 oz. **Features:** A micro-compact .380 automatic pistol made entirely in the USA. Designed with safety in mind, the DB380 features a "ZERO-Energy" striker firing system (patent pending) with a mechanical firing pin block, a steel magazine catch to secure a sheet metal magazine and real windage-adjustable sights, all in a

lightweight pistol. A steel trigger with dual connecting bars allows for a crisp smooth, five-pound DAO trigger pull. The DB380 features a FEA (Finite Element Analysis) designed slide and barrel that is stronger than any comparable firearm, resulting in durability with less felt recoil, and the absence of removable pins or tools makes field stripping easier than ever. The slide, barrel, and internal parts are coated to resist corrosion.

Price:\$340.00

DIAMONDBACK DB9

Caliber: 9mm, 6+1-shot capacity. **Barrel:** 3.

HECKLER & KOCH P30L AND P30LS

Caliber: 9mm x 19 and .40 S&W with 15-shot magazines.

Barrel: 4.45. **Weight:** 27.52 oz. **Length:** 7.56 overall. **Grips:** Interchangeable panels. **Sights:** Open rectangular notch rear sight with contrast points (no radioactive). **Features:** Like the P30, the P30L was designed as a modern police and security pistol and combines optimal function and safety. Ergonomic features include a special grip frame with interchangeable backstraps inserts and lateral plates, allowing the pistol to be individually adapted to any user. Imported from Germany by Heckler & Koch, Inc. Browning type action with modified short recoil operation. Ambidextrous controls include dual slide releases, magazine release levers, and a serrated decocking button located on the rear of the frame (for applicable variants). A Picatinny rail molded into the front of the frame makes mounting lights, laser aimers, or other accessories easy and convenient. The extractor serves as a loaded chamber indicator providing a reminder of a loaded chamber that can be subtly seen and felt. The standard P30L is a 9 mm "Variant 3 (V3)" with a conventional double-action/single action trigger mode with a serrated decocking button on the rear of the slide.

- Price:** P30L\$1,054.00
- Price:** P30L Variant 2 Law Enforcement Modification (LEM) enhanced DAO\$1,108.00
- Price:** P30L Variant 3 Double Action/Single Action (DA/SA) with Decocker\$1,108.00
