# RANGE GEAR

TARGETS, LIGHTS, SIGHTS, CAMERAS, CLEANERS AND MORE GOODIES FOR YOUR RANGE BAG ■ By Chad Love

**1. Midway USA** is now producing a tough, affordable shooting and range bag for shooters on a budget. The new bag is constructed of a tough, coated PVC and features reinforced stitching and heavy duty zippers. The bag, which comes in black or Mossy Oak Break-Up Infinity, also features two removable dividers and full-length pockets on either side. The bag measures 15.5Lx8wx8.5 high and retails for \$19.99. [www.midwayusa.com](http://www.midwayusa.com)

**2.** Looking for an affordable, high-quality rifle scope? **Minox** has introduced a lower price-point version of its popular ZA line of riflescopes. Dubbed the ZV 3, these 3-9x40 scopes feature fully multi-coated optics, a long four-inch eye relief and 1/4 click windage and elevation adjustments. The aluminum scope tubes are nitrogen-filled and waterproof. The ZV 3 will be offered in both the Minoxplex and BDC reticle. MSRP starts at \$269.

**3.** If you're in the market for an affordable, no-frills rifle rest the new Sight-Bloc from **In-Range Supplies** is an option. The Sight-Bloc is molded entirely from recycled rubber. The Sight-Bloc will not freeze absorb water or decompose while providing a stable rest. The 14lb. Sight-Bloc features two recessed rests which can accommodate heights from four, seven or nine inches, as well as being able to accommodate ARs with 30-round magazines. MSRP \$49.99. [www.inrangesupplies.com](http://www.inrangesupplies.com)

**4. Crimson Trace** has just introduced a line of Infrared laser sights for the civilian market. These new IR laser sights are only observable through night-vision equipment, which should come in handy for nighttime predator and hog hunters. With MSRP's ranging from \$299 to \$599, Crimson Trace claims these new sights are the most cost-effective solution for anyone looking to buy an IR laser sight. [www.crimsontrace.com](http://www.crimsontrace.com)

5. Want to transport your AR without anyone knowing it's an AR? Check out the new Liberator from **Renegade Ridge Tactical**. The design of this "discrete" tactical gun case allows you to carry your weapon while making people think you're carrying a musical instrument or tennis racket. The Liberator features 400 Denier Mil-spec Cordura exterior, a 400 Denier nylon pack cloth interior, polyethylene panel dense closed-cell foam construction for rigidity, reinforced seams, a double-padded muzzle area and heavy-duty handles. \$199.99. [www.renegaderidgetactical.com](http://www.renegaderidgetactical.com)

6. Attention shotgunners: there's a new shotgun sighting option from **Redring USA**. The Redring optical shotgun sight is designed to help shooters achieve better aim on a moving target by allowing shooters to take fast, instinctive shots with both eyes open. The parallax-free sight, which needs no calibration or sight-in, mounts to any shotgun with a rail or rib, and the sight's backlight adjusts to prevailing light conditions. The lightweight anodized aluminum sight does not affect the gun's weight or balance. The 1.5V AAAA battery lasts approximately 300 hours. \$899. [www.redringusa.com](http://www.redringusa.com)

7. Want to shoot prairie dogs but you live in, say, New Jersey? Now you can, with the new **Do All Impact Seal 3D Prairie Dog**. This life-sized, realistic, self-sealing target allows bullets to pass through with minimal damage, and is rated for all calibers from .22 through .50 caliber shooting soft-nose lead bullets. The 12-inch high prairie dog is mounted to a spring-loaded base to allow for a full range of movement for more challenging shooting. \$99.99. [www.do-alltraps.com/index.html](http://www.do-alltraps.com/index.html)

8. **Ballista Tactical Systems** has announced a novel new variation on the standard Picatinny rail. The Nautilus Rotating Rail is a unique system that offers shooters the ability to reconfigure their accessories without removing them from the rails. The Nautilus does this by offering the shooter up to eight individual 1913 Picatinny rails on the same seven-inch-long unit. There are two identical sections that are each comprised of four rails. Each section can be rotated 360 degrees in either direction. Two easily accessible buttons, one for each direction, allow users to rotate the Nautilus Rotating Rail in 45-degree increments. The Nautilus is constructed of aircraft-grade 6061 T6 aluminum, with 25 precision stainless steel ball bearings maintaining precise zero between rail rotations. It comes in four different color schemes and has an MSRP of \$549. [www.ballistatactical.com](http://www.ballistatactical.com)

9. **Firefield** has announced two new budget-conscious bipods to its product line. The Firefield Bipod and Compact Bipod are new models featuring padded stock mounts, adjustable legs (from 6-9 inches on the compact model and 9-14 on the regular size), pivot mounts with tension adjustments, and a no-modification swivel stud attachment point. MSRP \$48 (compact) \$60 (regular). [www.fire-field.com](http://www.fire-field.com)

**10.** Point-of-view video cameras have become wildly popular in recent years, and now shooters have a new recoil-activated camera option in the **ShotKam**.

This HD video camera captures the sight picture of a target at the moment the shooter squeezes the trigger, allowing shooters to go back and analyze video to determine why and how they missed (or hit) targets. The laser-aligned reticle shows the exact point of aim of your gun, and video can be viewed in slow motion or you can pull stills. The seven-ounce camera has a recording time of six to eight hours and can record over 200 shots on one charge. The ShotKam comes with an 8 or 32GB microSD card. MSRP \$649 (8GB) and \$849 (32GB). [www.altusbrands.com](http://www.altusbrands.com)

**11.** If you're looking for a new gun cleaner, the folks at **M-Pro 7** just introduced a new version of their combat-proven original gun cleaning formula called M-Pro 7 Foaming Gun Cleaner. This easy to use, fast-acting foam cleaner is supposed to quickly penetrate gun internals to remove layers of carbon, copper and lead, as well as act as a bore conditioner to prevent further fouling build-up. M-Pro 7 Foaming Gun Cleaner is odorless, non-toxic, non-flammable and biodegradable, making it safe to travel with and compliant with state and federal regulations. It is available in a 4 oz. pump-operated bottle for an MSRP of \$13.95. [www.mpro7.com](http://www.mpro7.com)

**13.** Zombie-themed targets are all the rage right now, but **Birchwood Casey's** new Darkotic Monstroid targets take the horror theme a little beyond mere undead. Eight new scary monsters are available, including the Snack Rabbit Jackalope, Dead Sea Sea Monster, Freezer Burn Yeti, Night Watch Werewolf, Final Harvest Scarecrow, Farm Hand Chupacabra, Grounds Crew Garden Gnomes and Scar Tissue, a chainsaw wielding maniac. 12"x18" splattering targets are available in 8 packs for \$12.50, 50 packs for \$70.00, or can be ordered individually/bulk in multiples of 100 for \$1.20 each. 23"x35" non-splattering paper versions of all eight targets are available for \$1.98 each in bulk/multiples of 100. <http://darkotictargets.com>

**12.** Everyone needs a good flashlight, and **Streamlight's** new ProTac HL

delivers a lot of light in a small package. With an output of 600 lumens, the ProTac HL is Streamlight's first programmable, handheld, lithium-powered flashlight. The flashlight is designed to throw both a strong, focused beam as well as a floodlight, the ProTac allows the user to select between three different programming options, from high/strobe/low to high only to low/high. On low the ProTac delivers 18 hours of runtime, high gets 75 minutes and strobe lasts for 2.5 hours. MSRP \$130. [www.streamlight.com](http://www.streamlight.com).

14. Sending range pics of your targets to your buddies or posting them on Facebook just got a whole lot easier with **Kowa's**

new iPhone digiscoping adapter. The adapter comes with two standard rings, one for the 88/77 series scopes and one for the BD/SV/YF series of binoculars. Additional lens rings may be purchased as well and are easily installed on the adapter in seconds. The aluminum adapter rings are lined with a soft material that makes them fit snugly on the eyecups without damaging your favorite Kowa optics, while the lightweight adapter is made of an epoxy resin material that will not damage the finish of your iPhone. \$58. [www.kowa-sporting-optics.com](http://www.kowa-sporting-optics.com).

## 15. Hi-Lux Optics

has just released the latest in its Wm. Malcom line of vintage reproduction riflescopes, a 3/4-inch tube Weaver 330C 2.5x rifle scope that is an exact replica of the US Military M73B1 WWII-era sniper scope. Introduced primarily for vintage sniper rifle competition, it wouldn't look bad on vintage hunting rifles, either. The scope features a 3.54" eye relief, modern erector tube and fully multi-coated optics. MSRP 399.95. [www.hi-luxoptics.com](http://www.hi-luxoptics.com)

# AT HOME ON THE RANGE

*Make shooting excursions more convenient and fun.*

BY DAVID DRAPER

**I**n direct relation to the scarcity of firearms and ammunition on gun store shelves, space has become a premium at both public and private ranges around the country. New gun owners are joining established shooters at the line and competitive shooters are spending more time practicing to keep up with the fast-growing field of competitors. That leaves lane time short, so you better be prepared to enjoy it with the right gear for the job. From ear and eye protection to instant-feedback targets, this list is a starting point for some of the new, great range equipment worth considering.

## **RADIANS LEATHER SHOOTING GLOVES**

*For 2013, Radians leaned on its long experience making safety gear for law enforcement and first responders to create a comfortable, functional set of shooting gloves. The palms are crafted from goatskin to blend softness and durability, while the mesh backs allow perspiration vapor to escape. Elastic wrists secure via a hook-and-loop strap for a nonbinding, customizable fit. (\$20; [radians.com](http://radians.com))*

## WILEY X VALOR SHOOTING GLASSES

Good shooting glasses don't have to look like they stepped straight out of shop class. These stylish specs feature lightweight nylon frames that Wiley X claims are virtually indestructible. The shatterproof lenses also stand up to hard use and are ANSI-certified to withstand the impact of a .25-inch steel BB impacting at 150 fps. The lenses also swap out easily, so you can go from clear to shaded as conditions dictate. Prescription lenses are also available. (\$95; wileyx.com)

## SIGHTBLOC

Finding a range rest that works well with ARs, bolt guns and pistols just got a lot easier with the introduction of the SightBloc. Crafted from ballistic rubber to offer three different shooting heights, allows the shooter to quickly and easily get on target with just a flip of the block. Made for all-weather use, the recycled rubber is rot, sun and water-resistant meaning you can leave on your home range all season long. (\$50; inrangesupplies.com)

### REMINGTON SQUEE-G SYSTEM KIT

*Some folks like cleaning guns, but me, I hate it. But I do love this new universal cleaning kit. The rubber tips make cleaning easier, with just a simple, pull-through motion that wipes the bore clean in just a few steps. The 32-piece kit accommodates everything from a .22 all the way up to 12-gauge to cover nearly all rifles, handguns and shotguns. It also includes a bottle each of Rem Oil and All-In Bore Cleaner. The carrying case doubles as a range bag. (\$80; remington.com)*

### CABELA'S PINNACLE SHOOTING BENCH

*Inspired by professional massage chairs, this collapsible shooting bench features an adjustable seat that leans forward allowing the shooter to rest against an ergonomically designed sternum pad, putting him at just the right angle for an accurate shot. Cabela's also claims the set-up helps the shooter better absorb felt recoil when shooting heavy calibers or sighting in a shotgun stuffed with magnum turkey loads. Bench and platform are constructed from ABS plastic with a powder-coated steel frame. (\$280; cabelas.com)*

**HOWARD LEIGHT IMPACT PRO MUFFS**

A good set of electronic muffs, like these from Howard Leight, not only help save your hearing, but also increase range safety by allowing the wearer to clearly hear range instructions and commands. Each slim-cut housing is fitted with a stereo microphone controlled by a single volume control knob. Active-response circuitry within the muffs amplifies voice and ambient sounds, yet instantly shuts off at 82 decibels to protect the shooter's hearing. Runs on standard AAA batteries. # AT HOME ON THE RANGE

## BENCHMASTER BISON BAGS

There are a lot of quality bench bags on the market, but few as distinctive as these made from top-grain bison leather. These bags blend the toughness to resist wear with a soft hand that cradles your firearm with care. Even the vegetable-tanning process is designed with fine guns in mind as it won't corrode bluing like cheaper, chromium-tanned leather bags do. An easy-pour spout makes filling or emptying these bags with sand, beans or other media a breeze. (\$60; [benchmasterusa.com](http://benchmasterusa.com))

## CARBINE UPPIERS - for Glock & 1911 Pistols

This upper *replaces* the slide assembly of your pistol and provides a handy semi-auto carbine - no mods to the pistol - completely reversible in seconds.

CA Legal with BB Magazine Release

Prices start at \$359.95

BATFE legal to convert back to pistol - converting back to pistol does **not** create an SBR - no NFA tax required - no FFL required to purchase. See our website for available rail options, accessories, configurations and pricing.

## BIRCHWOOD CASEY 3-GUN NATION TARGETS

The official targets of very popular 3-Gun Nation now feature Birchwood Casey's Dirty Bird splattering, hi-visibility technology. Each hit within the 17¼-inch target circle reveals a white splatter-mark for instant feedback to both the shooter and the range master. A red 8-inch circle within a circle represents the primary or A zone, while the remaining black ring is the B zone, which requires

two hits for a pass. It's worth noting these targets are nonadhesive. (\$13/per five targets; birchwoodcasey.com)

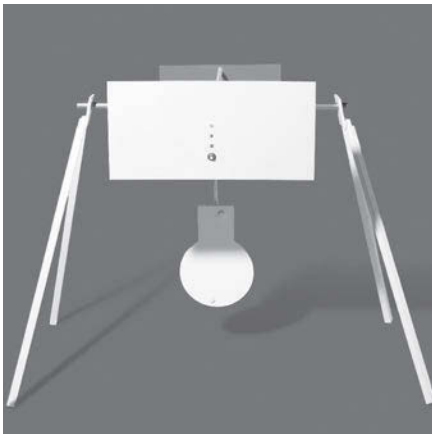

## BLACKHAWK! DIVERSION RANGE BAG

Sometimes you don't want to call attention to yourself, which calls for equipment from Blackhawk's new Diversion line of gun cases, backpacks and bags. Designed to look more like something you'd carry to the gym, the Range Bag features a fold-out front flap with removable pistol rug. Inside the large compartment utilizes removable dividers to organize ammo, eye protection and muffs. Two end pockets have hidden handgun compartments, and the whole package is wrapped in sporty colors that don't scream, "I'm carrying a gun!" (\$150; blackhawk.com)

## MGM LONG RANGE FLASH TARGET

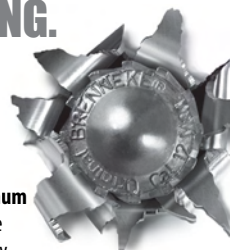

This auto-resetting target delivers an immediate answer to the question "Did I hit it?" With every hit, the 10-inch steel target swings backward, causing a bright orange polycarbonate panel to pop-up for visual confirmation. As the target falls back into place, the orange cue disappears and you're ready to fire again. Great for the home range or competitive shooting, it's designed to work past 400 yards when shooting a .223 and has been competition-proven to activate well beyond that, though the company suggests having a spotter to confirm hits at longer ranges. (\$427; mgmtargets.com) **GDTM**

## THE POWER TO PENETRATE JUST ABOUT ANYTHING.

Developed to police and military specifications, our **Special Forces Maximum Barrier Penetration Magnum**

12 gauge slug, made of an extra-hard alloy, is the ultimate projectile for demanding urban environments. It combines devastating power with the ability to penetrate windshields, wheel rims, tires and even engines. There is simply no more effective projectile for stopping modern day threats.
